ADDRESS ALL CORRESPONDENCE TO:
P.O. BOX 1460
ALHAMBRA, CALIFORNIA 91802-1460

June 29, 2010

ADOPTED

BOARD OF SUPERVISORS
COUNTY OF LOS ANGELES

The Honorable Board of Supervisors
County of Los Angeles
383 Kenneth Hahn Hall of Administration
500 West Temple Street
Los Angeles, California 90012

#46 JUNE 29, 2010

Sachi A. Hamai
SACHI A. HAMAI
EXECUTIVE OFFICER

Dear Supervisors:

**REVIEW OF FUND ACCOUNTINGS AND STATUS OF UNEXPENDED FUNDS FOR
BRIDGE AND MAJOR THOROUGHFARE CONSTRUCTION FEE DISTRICTS,
THE ANTELOPE VALLEY DRAINAGE AREA, AND
AD HOC DEVELOPMENT FEES FOR ROAD IMPROVEMENTS
AND TRAFFIC SIGNALS
(ALL SUPERVISORIAL DISTRICTS)
(3 VOTES)**

SUBJECT

This action is to review the fund accountings for the Bridge and Major Thoroughfare Construction Fee Districts, the Antelope Valley Drainage Area, and various Ad Hoc Development fees for road improvements and traffic signals; make the findings required by California Government Code Section 66001(d)(1) with respect to certain of these funds; and refund the unexpended portion of any funds for which these findings cannot be made.

IT IS RECOMMENDED THAT YOUR BOARD:

1. Review the fund accountings for the Bridge and Major Thoroughfare Construction Fee Districts, the Antelope Valley Drainage Area, and the Ad Hoc Development fees for road improvements and traffic signals, as required by Section 66006(b) of the California Government Code.
2. Adopt resolutions making the findings specified in California Government Code Section 66001(d)(1) with respect to the Bridge and Major Thoroughfare Construction Fee District funds, the Antelope Valley Drainage Area Fund, and certain Ad Hoc Development Fee funds for road improvements and traffic signals.
3. Authorize the Director of Public Works or her designee to refund, to the appropriate parties, the

unexpended portion of certain funds for which the findings specified in California Government Code Section 66001(d)(1) cannot be made.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

The County of Los Angeles (County) imposes fees on developers to defray the costs of public improvements necessary to serve the development and/or mitigate the impacts from the proposed development. These fees are deposited and maintained in separate funds and may only be expended for the specific public improvement for which they were collected.

The purpose of the recommended action is to review the status of the various Bridge and Major Thoroughfare (B&T) Construction Fee District (District) funds, the Antelope Valley Drainage Area fund, and the funds for various Ad Hoc Development fees, as required by California Government Code Section 66006(b)(1); to make certain findings, as required by Government Code Section 66001(d)(1), regarding the unexpended portions of those funds, as appropriate; and to authorize a refund of the unexpended portions of those funds for which the required findings are not justified.

Attachment 1 describes the general account information for each fund, for Fiscal Year 2008-09, as specified in California Government Code Section 66006(b)(1), including the beginning and ending balance and revenues and expenditures.

The attached resolutions contain the findings specified in California Government Code Section 66001(d)(1) with respect to the funds for which the findings are justified.

Attachments 2A and 2B describe the funds for which the findings required by California Government Code Section 66001(d)(1) cannot be made and which are recommended to be refunded to the appropriate parties.

Implementation of Strategic Plan Goals

The Countywide Strategic Plan directs the provision of Operational Effectiveness (Goal 1) and Community and Municipal Services (Goal 3). Developer fees provide sufficient funds to continue constructing County roads, bridges, and drainage improvements in an effective manner and provide traffic mitigation and flood protection that improves the quality of life for residents of the County.

FISCAL IMPACT/FINANCING

There will be no impact to the County General Fund. No change to any of the applicable fees is proposed at this time.

Pursuant to Section 66006(a) of the California Government Code, the County has created a separate fund for each B&T District, the Antelope Valley Drainage Area, and various Ad Hoc Development fees. There will be no County budgeting adjustments required to finance the proposed flood, highway, and bridge improvements. All funds related to improvements that are no longer necessary will be refunded from the Ad Hoc Development-Road Improvements Fund and the Ad Hoc Development-Traffic Signals Fund.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

The County imposes fees on developers in connection with the County's approval of specific development projects to defray the costs of public improvements necessary to serve the occupants of those projects and/or mitigate the traffic, drainage, and other impacts resulting from those projects.

Bridge and Major Thoroughfare Construction Fee Districts

Pursuant to Section 66484 of the California Government Code and Section 21.32.200 of the Los Angeles County Code, the County established the Bouquet Canyon, Route 126, Lyons Avenue/McBean Parkway, Castaic, and Valencia B&T Districts in the Santa Clarita Valley and the Lost Hills Road/Las Virgenes Road B&T District in the Calabasas area. The B&T Districts levy fees on new developments to defray the cost to construct highway and bridge improvements. The particular highway and bridge improvements within each B&T District are described in a B&T District report, which was prepared for each District and previously filed with your Board of Supervisors (Board) concurrently with the establishment or update of each District.

The Department of Public Works (Public Works) has conducted a review of each of these B&T Districts to determine the status of the improvements and development within the District. The results of Public Works' review of each of the B&T Districts are summarized in Attachments 3A-3F.

Public Works' review also included a determination as to whether or not any circumstances have changed since the most recent B&T District Report that would warrant deleting any of the planned (but not yet constructed) improvements from any of the Districts. Public Works has determined that no such deletions are warranted and that each of the planned (but not yet constructed) improvements within each of the B&T Districts are still necessary for the purposes described in the most recent B&T District Report.

The Antelope Valley Drainage Area

Pursuant to California Government Code Section 66483 and Section 21.32.400 of the Los Angeles County Code, your Board adopted and established the Antelope Valley Drainage Area (AVDA). New developments within the boundaries of the AVDA are levied a fee to defray the costs of drainage improvements needed in the Antelope Valley. The particular drainage improvements within the AVDA are described in the Final Report on the Antelope Valley Comprehensive Plan of Flood Control and Water Conservation (AV Report), dated June 1987 and adopted by your Board on June 23, 1987. The AVDA was amended in October 2006, as described in the Amendment to Antelope Valley Final Report on the Comprehensive Plan of Flood Control and Water Conservation (AV Amendment).

Public Works has conducted a review of the AVDA to determine the status of the improvements and development within the AVDA. The results of Public Works' review are summarized in Attachment 4.

Public Works' review also included a determination as to whether or not any circumstances have changed since the AV Amendment that would warrant deleting any of the planned (but not yet constructed) improvements from the AV Report. Public Works has determined that no such deletions are warranted and that each of the planned (but not yet constructed) improvements identified in the AV Report are still necessary for the purposes described in the AV Report and AV Amendment.

Ad Hoc Road Improvements and Traffic Signals

The County also imposes fees on specific development projects, on an Ad Hoc basis, to defray the costs of roadway improvements and traffic signal improvements that are not included in a B&T District. The particular improvements for which Ad Hoc fees have been collected are described in the attached Resolutions (Ad Hoc Development Fees–Road Improvements, Ad Hoc Development Fees–Traffic Signals) and in Attachments 2A and 2B to this Board letter.

Public Works has conducted a review of the various Ad Hoc fees to determine the status of the improvements and the surrounding developments. The results of Public Works' review are summarized on the attachments to the resolutions.

Public Works' review also included the determination of whether or not any circumstances have changed since the imposition of the various fees that would warrant cancelling any of the planned (but not yet constructed) improvements.

Public Works has determined that the improvements identified in Attachments 2A and 2B are no longer necessary and, therefore, there is no longer any purpose for the unexpended fees remaining in each of the corresponding Ad Hoc funds.

Public Works has determined that the Ad Hoc improvements identified in Attachment A to the Resolutions (Ad Hoc Development Fees–Road Improvements and Ad Hoc Development Fees–Traffic Signals) have not been completed and are still necessary to mitigate the traffic and other related impacts resulting from the projects on which the fees were imposed.

Public Works has also determined that the Ad Hoc improvements identified in Attachment B to the Resolutions (Ad Hoc Development Fees–Road Improvements and Ad Hoc Development Fees–Traffic Signals) are necessary to mitigate the traffic and other related impacts resulting from the projects on which the fees were imposed and that these improvements have been completed with funds advanced by the County or by private developers as part of a B&T District.

Mitigation Fee Act Reporting

Pursuant to California Government Code Section 66006(a), the fees described above must be deposited in a separate capital facilities account or fund in a manner to avoid any commingling of the fees with other revenues and funds of the local agency.

Pursuant to California Government Code Section 66006(b)(1), the County is required to make certain information available to the public for each of these accounts or funds on an annual basis. In compliance with this requirement, the information contained in Attachment 1 has been posted on Public Works' website at http://dpw.lacounty.gov/ldd/index.cfm?p=ldd_procbonnds and also has been available at Public Works' Headquarters for inspection since May 25, 2010.

Pursuant to Section 66006(b)(2) of the California Government Code, your Board must review this information at a public meeting not sooner than 15 days after the information is made available to the public. In addition, notice of the time and place of the meeting, including the address where this information may be reviewed, shall be mailed, at least 15 days prior to the meeting, to any interested party who files a written request with the local agency for mailed notice of the meeting, however, no such written request has been filed.

Additionally, California Government Code Section 66001(d)(1) provides that a local agency must

make the following findings with respect to the unexpended portion of each fund for the fifth fiscal year following the initial deposit into each such fund and every five years thereafter:

- (A) Identification of the purpose to which the fee is to be put.
- (B) Demonstration of a reasonable relationship between the fee and the purpose for which it is charged.
- (C) Identification of all sources and amounts of funding anticipated to complete financing on incomplete improvements.
- (D) Designation of the approximate dates on which the funding referred to above is expected to be deposited into the appropriate account or fund.

If these findings cannot be made as to the unexpended portion of any given fund, Section 66001(d) (2) requires the local agency to refund the moneys in the fund, and any accrued interest, to the then current record owner or owners of the lots or units, as identified on the last equalized assessment roll, of the development project or projects on a prorated basis.

Public Works has determined that the required findings are appropriate with respect to the funds described in the attached resolutions for the reasons described above.

Public Works has determined that it is appropriate to refund the unexpended portions of the funds described in Attachments 2A and 2B for the reasons described above.

ENVIRONMENTAL DOCUMENTATION

The recommended actions are not a project pursuant to the California Environmental Quality Act (CEQA) because they constitute activities that are excluded from the definition of a project by Section 15378 (b) of the CEQA Guidelines. The recommended actions are statutorily required fiscal activities that do not involve any commitment to a specific project, which may result in a potentially significant physical impact on the environment.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

There will be no adverse impact on current services or projects since this is a routine annual reporting to provide the accounting information for the subject funds to the public.

CONCLUSION

Please return one adopted copy of this letter and one copy of the fund accounting information to the Department of Public Works, Land Development Division.

The Honorable Board of Supervisors
6/29/2010

GOVERNMENT CODE SECTION 66001**

AD HOC DEVELOPMENT FEES—ROAD IMPROVEMENTS

WHEREAS, the County of Los Angeles (COUNTY) has imposed Ad Hoc Development Fees (FEES) in connection with the COUNTY'S approval of specific development projects on an ad hoc basis, to defray the costs of public roadway improvements necessary to mitigate the traffic and other impacts resulting from those specific projects; and

WHEREAS, the Department of Public Works maintains a separate Ad Hoc Fund (FUND) for each road improvement project for which a FEE has been collected as identified in Attachments A and B; and

WHEREAS, COUNTY is required to make certain findings every five years with respect to the unexpended balance of each FUND, pursuant to California Government Code Section 66001(d)(1).

NOW, THEREFORE, the Board of Supervisors of the COUNTY hereby finds, determines, and resolves as follows:

1. FEES remaining in each of the FUNDS identified in Attachment A are to be used for the purpose of financing the public improvements described therein.
2. FEES remaining in each of the FUNDS identified in Attachment B are to be used for the purpose of reimbursing the COUNTY'S Road Fund or a Bridge and Major Thoroughfare Construction Fee District Fund for sums advanced by the COUNTY or private entities to pay the costs of constructing the improvement for which the fee was charged.
3. A reasonable relationship exists between the FEES remaining in each of the FUNDS identified in Attachment A and the purposes for which those fees were charged. Each of the public improvements described in Attachment A is still necessary to mitigate the traffic and other impacts caused by the development project on which the fee was charged. Further, each of these public improvements remains incomplete and the FEES remaining in each of the FUNDS are necessary to finance the future completion of these improvements.
4. A reasonable relationship exists between the FEES remaining in each of the FUNDS identified in Attachment B and the purposes for which those fees were charged. Each of the public improvements identified in Attachment B are necessary to mitigate the traffic and other impacts caused by the development project on which

5. The sources and amounts of funding anticipated to complete financing of each of the improvements described in Attachment A are also described in Attachment A.
6. The approximate dates on which the funding referred to in paragraph No. 5, above, is expected to be deposited into the appropriate fund are indicated in Attachment A.

**RESOLUTION OF THE BOARD OF SUPERVISORS FOR THE COUNTY OF
LOS ANGELES TO MAKE CERTAIN FINDINGS, PURSUANT TO CALIFORNIA
GOVERNMENT CODE SECTION 66001**

AD HOC DEVELOPMENT FEES—TRAFFIC SIGNALS

WHEREAS, the County of Los Angeles (COUNTY) has imposed Ad Hoc Development Fees (FEES) in connection with the COUNTY'S approval of specific development projects on an ad hoc basis, to defray the costs of traffic signal improvements necessary to mitigate the traffic and other impacts resulting from those specific projects; and

WHEREAS, the Department of Public Works maintains a separate Ad Hoc Fund (FUND) for each intersection for which a FEE has been collected as identified in Attachments A and B; and

WHEREAS, COUNTY is required to make certain findings every five years with respect to the unexpended balance of each FUND, pursuant to California Government Code Section 66001(d)(1).

NOW, THEREFORE, the Board of Supervisors of the COUNTY hereby finds, determines, and resolves as follows:

1. FEES remaining in each of the FUNDS identified in Attachment A are to be used for the purpose of financing traffic signal improvements for the intersections described therein.
2. FEES remaining in each of the Ad Hoc FUNDS identified in Attachment B are to be used for the purpose of reimbursing the COUNTY'S Road Fund or private developers (through a Bridge and Major Thoroughfare Construction Fee District Fund) for sums advanced by the COUNTY or private developer to pay the costs of constructing the improvement for which the fee was charged.
3. A reasonable relationship exists between FEES remaining in each of the FUNDS identified in Attachment A and the purposes for which those fees were charged. The traffic signal improvements for each of the intersections identified in Attachment A are still necessary to mitigate the traffic and other impacts caused by the development project on which fee was charged. Further, the traffic signal improvements for each of these intersections remain incomplete and the fees remaining in each of the funds are necessary to finance the future completion of these improvements.
4. A reasonable relationship exists between the FEES remaining in each of the FUNDS identified in Attachment B and the purposes for which those fees were charged. Each of the public improvements identified in Attachment B is necessary to mitigate

5. The sources and amounts of funding anticipated to complete financing of the traffic signal improvements for each of the intersections described in Attachment A are also described in Attachment A.
6. The approximate dates on which the funding referred to in paragraph no. 5, above, is expected to be deposited into the appropriate fund are indicated in Attachment A.

**RESOLUTION OF THE BOARD OF SUPERVISORS FOR THE COUNTY OF
LOS ANGELES TO MAKE CERTAIN FINDINGS, PURSUANT TO CALIFORNIA
GOVERNMENT CODE SECTION 66001, FOR FISCAL YEAR 2008-09**

ANTELOPE VALLEY DRAINAGE AREA

WHEREAS, the County of Los Angeles (COUNTY) has established the Antelope Valley Drainage Area, as described in the Antelope Valley Comprehensive Plan of Flood Control and Water Conservation, dated June 1987 and the Amendment to Antelope Valley Final Report on the Comprehensive Plan of Flood Control and Water Conservation, approved in October 2006 (hereinafter collectively referred to as DRAINAGE PLAN); and

WHEREAS, DRAINAGE PLAN describes various drainage improvements (PLANNED IMPROVEMENTS) that this Board of Supervisors (BOARD) previously determined were necessary to provide flood protection to new subdivisions and other new development within Antelope Valley Drainage Area and/or to mitigate the drainage impacts anticipated to be caused by said development; and

WHEREAS, COUNTY has imposed fees (FEES) in connection with the COUNTY'S approval of development projects located within the Antelope Valley Drainage Area, pursuant to Section 21.32.400 of the Los Angeles County Code, to defray the costs of constructing the PLANNED IMPROVEMENTS; and

WHEREAS, a number of the PLANNED IMPROVEMENTS remained incomplete as of June 30, 2009; and

WHEREAS, the Department of Public Works maintains a separate fund (FUND) for the FEES collected; and

WHEREAS, COUNTY is required to make certain findings every five years with respect to the unexpended balance of the FUND, pursuant to California Government Code Section 66001(d)(1).

NOW, THEREFORE, the BOARD of the COUNTY hereby finds, determines, and resolves as follows:

1. The unexpended FEES remaining in the FUND are to be used for the purpose of financing the design and/or construction of the PLANNED IMPROVEMENTS that remain incomplete or to reimburse public or private entities for the costs incurred by those entities for the design or construction of those improvements.
2. A reasonable relationship exists between the unexpended FEES remaining in the FUND and the purpose for which those fees were charged. The PLANNED IMPROVEMENTS that have not yet been constructed are still necessary to provide flood protection to, and/or mitigate drainage impacts caused by, the development projects on which the FEES were imposed, and the FEES remaining in the FUND are necessary to finance the future design and construction of these improvements.

The foregoing Resolution was adopted on the 29 day of June, 2010,
by the Board of Supervisors of the County of Los Angeles.

SACHI A. HAMAI
Executive Officer of the
Board of Supervisors of the
County of Los Angeles

**RESOLUTION OF THE BOARD OF SUPERVISORS FOR THE COUNTY OF
LOS ANGELES TO MAKE CERTAIN FINDINGS, PURSUANT TO CALIFORNIA
GOVERNMENT CODE SECTION 66001, FOR FISCAL YEAR 2008-09**

**BOUQUET CANYON
BRIDGE AND MAJOR THOROUGHFARE CONSTRUCTION FEE DISTRICT**

WHEREAS, the County of Los Angeles (COUNTY) has established the Bouquet Canyon Bridge and Major Thoroughfare Construction Fee District (DISTRICT), as described in the Bouquet Canyon Bridge and Major Thoroughfare Construction Fee District Report (DISTRICT REPORT) dated May 2002 and filed with this Board of Supervisors (BOARD) on June, 25, 2002; and

WHEREAS, DISTRICT REPORT describes various bridge and roadway improvements (PLANNED IMPROVEMENTS) that his BOARD previously determined were necessary to mitigate the traffic and other related impacts anticipated to be caused by future development in the DISTRICT; and

WHEREAS, COUNTY has imposed fees (FEES) in connection with the COUNTY'S approval of development projects located within the DISTRICT, pursuant to Section 21.32.200 of the Los Angeles County Code, to defray the costs of constructing the PLANNED IMPROVEMENTS; and

WHEREAS, a number of the PLANNED IMPROVEMENTS remained incomplete as of June 30, 2009; and

WHEREAS, the Department of Public Works maintains a separate fund (FUND) for the FEES collected; and

WHEREAS, COUNTY is required to make certain findings every five years with respect to the unexpended balance of the FUND, pursuant to California Government Code Section 66001(d)(1).

NOW, THEREFORE, the BOARD of the COUNTY hereby finds, determines, and resolves as follows:

1. The unexpended FEES remaining in the FUND are to be used for the purpose of financing the construction (including design, right-of-way acquisition, and contract administration) of the PLANNED IMPROVEMENTS that remain incomplete or to reimburse public or private entities for the costs incurred by those entities for the construction of those improvements.
2. A reasonable relationship exists between the unexpended FEES remaining in the FUND and the purpose for which those FEES were charged. The PLANNED IMPROVEMENTS that have not yet been constructed are still necessary to mitigate the traffic and other related impacts caused by the development projects on which the FEES were imposed, and the FEES remaining in the FUND are necessary to finance the future construction of those improvements.

- [illegible]

The foregoing Resolution was adopted on the 29 day of June, 2010,
by the Board of Supervisors of the County of Los Angeles.

**CASTAIC
BRIDGE AND MAJOR THOROUGHFARE CONSTRUCTION FEE DISTRICT**

WHEREAS, the County of Los Angeles (COUNTY) has established the Castaic Bridge and Major Thoroughfare Construction Fee District (DISTRICT) as described in the Castaic Bridge and Major Thoroughfare Construction Fee District Update Report (DISTRICT REPORT) dated June 2009 and filed with this Board on August 4, 2009; and

WHEREAS, DISTRICT REPORT describes various bridge and roadway improvements (PLANNED IMPROVEMENTS) that this Board of Supervisors (BOARD) previously determined were necessary to mitigate the traffic and other related impacts anticipated to be caused by future development in the DISTRICT; and

WHEREAS, COUNTY has imposed fees (FEES) in connection with the COUNTY'S approval of development projects located within the DISTRICT, pursuant to Section 21.32.200 of the Los Angeles County Code, to defray the costs of constructing the PLANNED IMPROVEMENTS; and

WHEREAS, a number of the PLANNED IMPROVEMENTS remained incomplete as of June 30, 2009; and

WHEREAS, the Department of Public Works maintains a separate fund (FUND) for the FEES collected; and

WHEREAS, COUNTY is required to make certain findings every five years with respect to the unexpended balance of the FUND, pursuant to California Government Code Section 66001(d)(1).

NOW, THEREFORE, the BOARD of the COUNTY hereby finds, determines, and resolves as follows:

1. The unexpended FEES remaining in the FUND are to be used for the purpose of financing the construction (including design, right-of-way acquisition, and contract administration) of the PLANNED IMPROVEMENTS that remain incomplete or to reimburse public or private entities for the costs incurred by those entities for the construction of those improvements.
2. A reasonable relationship exists between the unexpended FEES remaining in the FUND and the purpose for which those FEES were charged. The PLANNED IMPROVEMENTS that have not yet been constructed are still necessary to mitigate the traffic and other related impacts caused by the development projects on which the FEES were imposed, and the FEES remaining in the FUND are necessary to finance the future construction of these improvements.

**LOST HILLS ROAD–LAS VIRGENES ROAD
BRIDGE AND MAJOR THOROUGHFARE CONSTRUCTION FEE DISTRICT**

WHEREAS, the County of Los Angeles (COUNTY) has established the Lost Hills Road–Las Virgenes Road Bridge and Major Thoroughfare Construction Fee District (DISTRICT) as described in the Lost Hills Road–Las Virgenes Road Bridge and Major Thoroughfare Construction Fee District Report (DISTRICT REPORT) dated February 2, 2004, and filed with this Board of Supervisors (BOARD) on January 25, 2005; and

WHEREAS, DISTRICT REPORT describes various bridge and roadway improvements (PLANNED IMPROVEMENTS) that this BOARD previously determined were necessary to mitigate the traffic and other related impacts anticipated to be caused by future development in the DISTRICT; and

WHEREAS, COUNTY has imposed fees (FEES) in connection with the COUNTY'S approval of development projects located within the DISTRICT, pursuant to Section 21.32.200 of the Los Angeles County Code, to defray the costs of constructing the PLANNED IMPROVEMENTS; and

WHEREAS, a number of the PLANNED IMPROVEMENTS remained incomplete as of June 30, 2009; and

WHEREAS, the Department of Public Works maintains a separate fund (FUND) for the FEES collected; and

WHEREAS, COUNTY is required to make certain findings every five years with respect to the unexpended balance of the FUND, pursuant to California Government Code Section 66001(d)(1).

NOW, THEREFORE, the BOARD of the COUNTY hereby finds, determines, and resolves as follows:

1. The unexpended FEES remaining in the FUND are to be used for the purpose of financing the construction (including design, right-of-way acquisition, and contract administration) of the PLANNED IMPROVEMENTS that remain incomplete or to reimburse public or private entities for the costs incurred by those entities for the construction of those improvements.

**RESOLUTION OF THE BOARD OF SUPERVISORS FOR THE COUNTY OF
LOS ANGELES TO MAKE CERTAIN FINDINGS, PURSUANT TO CALIFORNIA
GOVERNMENT CODE SECTION 66001, FOR FISCAL YEAR 2008-09**

**LYONS AVENUE–MC BEAN PARKWAY
BRIDGE AND MAJOR THOROUGHFARE CONSTRUCTION FEE DISTRICT**

WHEREAS, the County of Los Angeles (COUNTY) has established the Lyons Avenue–McBean Parkway (DISTRICT), as described in the Lyons Avenue–McBean Parkway Bridge and Major Thoroughfare Construction Fee District Report (DISTRICT REPORT) dated April 30, 1998, and filed with this Board on May 12, 1998; and

WHEREAS, DISTRICT REPORT describes various bridge and roadway improvements (PLANNED IMPROVEMENTS) that this Board of Supervisors (BOARD) previously determined were necessary to mitigate the traffic and other related impacts anticipated to be caused by future development in the DISTRICT; and

WHEREAS, COUNTY has imposed fees (FEES) in connection with the COUNTY'S approval of development projects located within the DISTRICT, pursuant to Section 21.32.200 of the Los Angeles County Code, to defray the costs of constructing the PLANNED IMPROVEMENTS; and

WHEREAS, certain of the PLANNED IMPROVEMENTS have been constructed with funds advanced by private entities on the condition that the funds be reimbursed by the DISTRICT; and

WHEREAS, the Department of Public Works maintains a separate fund (FUND) for the FEES collected; and

WHEREAS, COUNTY is required to make certain findings every five years with respect to the unexpended balance of the FUND, pursuant to California Government Code Section 66001(d)(1).

NOW, THEREFORE, the BOARD of the COUNTY hereby finds, determines, and resolves as follows:

1. The unexpended FEES remaining in the FUND are to be used for the purpose of reimbursing public and private entities for sums advanced by those entities to pay the costs of constructing the PLANNED IMPROVEMENTS.
2. A reasonable relationship exists between the unexpended FEES remaining in the FUND and the purpose for which those FEES were charged. The PLANNED IMPROVEMENTS are necessary to mitigate the traffic and other related impacts

3. The sources and amounts of funding anticipated to complete financing of the PLANNED IMPROVEMENTS are described in the DISTRICT REPORT. Of the 1,837 total factored development units identified in the DISTRICT REPORT, 1,206 of these units remain undeveloped, representing \$ 3,256,200 of fee revenues that the COUNTY still expects to be collected in connection with future development projects.
4. The funding referred to above is expected to be deposited into the FUND within the next 20 to 30 years as development of the parcels subject to the FEES occurs.
